1	At Kurla Refuse Transfer Station (KRTS), on an average daily about 650 M.T. ($\pm 20\%$ variation) of refuse will be received from 'G/N', 'F/N', 'L', 'H/E', 'H/W' & 'K/E' Wards by Municipal and private refuse vehicle	The generation of garbage per day are taken on a higher side i.e. maximum 780 ton per day which we find may be generated for few days during monsoon or festival period. We therefore suggest generation per day to be 650 ton per day on an average and the bidder should lift the actual garbage coming in to transfer station. Kindly amend	Tender Condition prevails

2		We understand that the concretisation of transfer station is shortly due. The work may go on for 3 to 4 months. Kindly allow the contractor to recover the cost of fixed assets and manpower deployed in the project for the time they are remaining idle due to the stoppage of work for to concretisation	Tender Condition prevails
3	1.3 Similar Experience: “Similar work shall mean; the bidder shall have carried out work in the field of Collection & Transportation of Municipal Solid Waste for any Government / Semi-Government Organizations / Public Sector undertakings uninterruptedly for two years”	We understand that the work is to be carried out under MSW 2016 rule and no desalting and drainage experience shall be allowed for the eligibility purpose as per the earlier case.	Tender Condition prevails
4	Refer Pg. No. 84 of DT	We understand that BMC shall insist on the vehicles numbers submitted for eligibility purpose are to be deployed in the project positively to avoid ambiguity later on.	Tender Condition prevails
