(Hydraulic Engineer's Department)

Subject: SITC of wall mounted 120 Watts LED street lights & LED post top lanterns with fittings at Pise Pre-chlorination Plant.

- **Preamble:-**

Pise Water Works comprises of Pumping Station, Sub Station and Pre-Chlorination Plant. Pise Pumping Station supplies about 2020 MLD water to Greater Mumbai. This is one of the vital installations of MCGM.

Pre-Chlorination Plant at Pise has been commissioned in the Year 1983 to disinfect the raw water, which is pumped from Pise to Panjrapur. Chlorine is used to disinfect the water. This chlorine is injected into three water mains carrying water pumped from Pise Pumping Station.

For lighting purpose around the chlorine plant, 14 nos. of 60 watts LED light fittings were installed in the year of 2019. At present most of these lights are not in working condition also some of them are flickering due to the fault in the driver system. The LED's which are in working condition are giving dim light / poor lumens because of the longer use. These LED lights have served their useful life. Due to the poor illumination, darkness is observed in night around the plant & hence it is required to replace these LED's by 120 watts LED's considering height of the plant (i.e.12 Mtrs) for better illumination.

It is therefore proposed to carry out the work of "SITC of wall mounted 120 Watts LED street light with fittings – 15 Nos. (14 Nos. around the plant & 01 No. for D.G.Set) along with 03 nos. LED post top lanterns "

3. LED Lights shall be connected to the main control panel situated in pump room through 4 core 2.5 sq.mm copper armored cable. 15 Nos. smart pack Junction box with 6A MCB & terminals shall be connected with LED light.
